**PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS
THE MAHARAJA OF MYSORE.**

GENERAL AND REVENUE DEPARTMENTS.

Order No. G. 9437-87—P. P. 13-19-23, dated 30th October 1919.

In view of the announcement made by the Government of India that the main Peace Celebrations will be held in India in the next cold weather, the Government of His Highness the Maharaja desire that similar celebrations should be held on a scale suited to the greatness of the occasion, throughout the State.

2. The Yare accordingly pleased to direct that Saturday the 13th December 1919, should be observed as a general holiday throughout the State, that Sunday, the 14th December, should be set apart for public thanksgiving and that the main peace celebrations should take place on Monday the 15th December, and Tuesday the 16th December 1919, on which dates all Schools, Offices and Courts will be closed.

3. The following forms of celebrations are suggested for adoption in addition to others which may be decided on locally.

13th December.—

- (1) Feeding and clothing the poor.
- (2) Decorations of streets, private dwellings, shops and public buildings with flags, etc.

14th December.—

- (3) Religious services in all places of worship at which collection of alms may be made for the benefit of the disabled and of the dependents of soldiers who have fallen in the war.
- (4) Village Bajanās, Harikathas, etc.

15th December.—

- (5) Entertainment and sports to troops, wherever possible.
- (6) Distribution of sweets to children and of peace medallions.
- (7) Sports to children and grant of prizes to them.
- (8) Public Meetings and Addresses.

16th December.—

- (9) A public ceremonial procession through the principal streets with the photos of Their Majesties the King Emperor and the Queen Empress and His Highness the Maharaja. All the principal officers and leading gentlemen in the locality should take part in the procession.
- (10) Bonfires, fireworks and illuminations.

4. At every district and taluk headquarter station and at other places, public demonstrations and meetings should also be held on the 15th December so as to bring home the greatness of the occasion to the people at large and to impress the occasion upon the minds of children. The Deputy Commissioners are requested to pay special attention to the celebrations in localities from which recruits were largely obtained, and also to arrange for the men who have returned from the front being given a prominent part in the celebrations and in the public meetings. The celebrations in Educational institutions on Durbar Day (12th December) will be merged in the Peace Celebrations as indicated above and need not be organised separately.

No. G. 9437-87—P. P. 13-19-23, DATED 30TH OCTOBER 1919.

READ—

Government Order No. 1793-813—Sany. 84-18-6, dated 24th July 1919, authorising the Sanitary Commissioner to fix the minimum number of cases of Vaccination to be performed by every vaccinator for each taluk according to local circumstances and the Presidents of District Boards to retrench the travelling allowance of vaccinators if their work falls short of the minimum.

2. Extract from the notes of the Dewan's Tour in the Districts of Tumkur, Hassan and Kádur in January 1919, stating that the minimum number of cases for a vaccinator in the Hassan District has been fixed at 30 which is very low and that it should be revised forthwith in accordance with recent orders.

3. Letter No. B. Dis. 25, dated 20th September 1919, from the Sanitary Commissioner forwarding copy of a circular letter addressed to the Presidents of District Boards stating that vaccinators should perform annually at least 31 primary vaccinations per thousand of the population in their charge, and that on the basis of this standard, retrenchments in their fixed travelling allowance should be effected in the manner prescribed in Government Order, dated 24th July 1919 read above.

READ—

Government Order No. J. 4609-18—Pol. 234-15-10, dated the 10th May 1918, sanctioning the re-organization of the Police Department.

2. Letter dated the 4th September 1918, from Mr. Mir Humza Hussain, Inspector-General of Police in Mysore, enclosing a note on certain proposals connected with the Police Re-organization Scheme.

3. Letter No. 6538-464, dated 19th—20th March 1919, from the Inspector-General of Police in Mysore on the same subject.

Order No. G. 202-211—Pol. 163-18-2, dated Camp Mysore, 4th October 1919.

In the letters read above, the Inspector-General of Police has submitted the following proposals for the orders of Government:—

1. To remove the Prosecuting Inspectors, Training School Inspectors and a few other officers from the general cadre of Inspectors and place them in a separate cadre of non-executive officers.

2. To retain the old class of Jamedars which had been ordered to be gradually abolished in the Government Order of May 1918 and place in this class, the 22 Sub-Inspectors attached to the marginally noted offices.

3. To create four appointments of Assistant Superintendents of Police on a pay of Rs. 200 each to be placed in charge of the marginally noted Sub-Divisions with a view to afford relief to the Superintendents of the heavier districts and also to provide an opening to capable and deserving officers among Inspectors, to rise to the gazetted ranks of the service.

II. With regard to the first of the proposals, Government are not convinced of the necessity for placing the officers referred to therein in a separate cadre and accordingly direct that the present arrangement of having all the Inspectors placed in the same cadre be continued.

III. As regards the second proposal, it is represented that on account of the disparity between the pay of the 1st grade daffedar on Rs. 18 and that of the last grade Sub-Inspector on Rs. 40, some practical difficulty is experienced in promoting or reducing these officers from one grade to the other and that it is therefore necessary to have an intermediate grade between these two appointments. Hence, it is proposed to retain the grade of Jamedar which had been ordered to be replaced by Sub-Inspectors in the Government Order above referred to, and to transfer to this grade from that of the Sub-Inspectors the 22 appointments referred to above, the incumbents of which are chiefly employed on ministerial work.

Government accept the recommendation of the Inspector-General of Police and are pleased to direct that the grade of Jamedar be retained and that the 22 officers above referred to, who are attached to the District Reserve and other offices be placed in that grade, their pay being fixed at Rs. 25 per mensem.

No. G. 202-211—POL. 163-18-2, DATED CAMP MYSORE, 4TH OCTOBER 1919.

IV. In respect of the third proposal, it is urged by the Inspector-General of Police that the administration of the City Police demands close attention and that the appointment of an officer of the grade of an Assistant Superintendent of Police, for the charge of the Bangalore City is a measure of urgent necessity and importance, that the Districts of Shimoga, Kolar and Chitaldrug are too large to be efficiently administered by the District Superintendents of Police and that it is desirable to have an Assistant Superintendent for each of these places to afford relief to the Superintendents, so as to enable them to exercise better and more effective supervision over the investigation of crime in the districts. It is also urged that the creation of these appointments will provide an opening for the officers of the Department who have specially distinguished themselves by good and honest work to the gazetted ranks of the service.

Government agree with the Inspector-General of Police and are accordingly pleased to sanction the appointment of four Assistant Superintendents of Police on a salary of Rs. 200, per mensem for the charge of the marginally noted places. The appointments of four Inspectors of the 1st and 2nd classes on Rs. 200, and Rs. 175, per mensem respectively, will be abolished and in their place, four Inspectors will be added in the lower classes as follows: one of Rs. 60, two on Rs. 70, each and one on Rs. 80.

Bangalore City.
Chickballapur Sub-Division, Kolar District.
Davangere Sub-Division, Chitaldrug District
Sagar Sub-Division, Shimoga District.

V. The Assistant Superintendents will be subordinate to the Superintendents of Police and will be subject to their general powers of supervision. They will submit their diaries through them to the Deputy Commissioner and the Inspector-General of Police. They will personally supervise the investigation of all heinous cases in their charges and pay systematic attention to minor crime. Subject to the general control of the Superintendent of Police, they will discharge all the functions of the Superintendent of Police. They will have full disciplinary powers, including powers of appointment and dismissal, over the constables in the taluks under their charge. Proposals in respect of all higher appointments will be submitted by them for the orders of the Superintendent of Police.

VI. Government note that the proposals sanctioned in this order will not entail any additional expenditure as will be seen from the appended statement showing the existing scale as well as the scale now sanctioned of the officers referred to in the order.

The Report of the Hill Stations in Mysore for 1918-19 submitted by the Curator in charge of Hill Stations in Mysore with his letter No. 41, dated the 15th August 1919.

Order No. G. 9420—G. M. 54-19-3, dated 30th October 1919.

Recorded.

2. In October 1918, the charge of the Hill Stations was separated from that of the Gardens Department, and Mr. Y. Rama Rao, Curator, placed in charge of the former.

3. The Nandi Hill continued to grow in popularity. In spite of the station having been closed in February and June 1919, owing to the prevalence of small pox and cholera in those months, the number of visitors during the year showed an increase, being 872 against 681 in the previous year.

4. As regards the Devarayadurg and Kalhathgiri bungalows, orders have issued that for the present it is enough if they are improved and treated as 1st class travellers' bungalows.

5. The scheme to make the Bababudan Hill slope a health resort has been ordered to be deferred for the present in Government Order No. G. 6597-600—G. M. 580-15-16, dated the 16th September 1919.

GOVERNMENT OF H. H. THE MAHARAJA OF MYSORE,
GENERAL AND REVENUE SECRETARIAT.

Dated Bangalore, the 2nd October 1919.

OFFICIAL MEMORANDUM.

It has come to the notice of Government that in several offices all papers received from Government, including standing orders and orders sent merely for information, are being registered without exception. Government consider that this practice involves unnecessary work and that it will be sufficient if the following classes of Government Orders are registered in the offices to which copies of the same are supplied:—

- (1) Orders upon references made from the office in question or to matters pending therein ; and
- (2) Orders requiring further action.

2. Standing Orders and other printed orders sent for information may be kept in reference collections, after circulating copies, if necessary, to the subordinate officers concerned, but it is unnecessary to enter them in office registers. Such orders invariably appear in the monthly volume of Government Proceedings, copies of which are supplied to all important offices.

By Order,
C. S. BALASUNDARAM IYER,
Chief Secy. to Govt.

The Deputy Commissioners of Districts.

Inspection of Offices.

No. 805-854—E. A. G. 397, DATED 10TH OCTOBER 1919.

**PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS
THE MAHARAJA OF MYSORE.**

GENERAL AND REVENUE DEPARTMENTS

Order No. 805-854—E A G. 397, dated 10th October 1919.

In modification of Government Order No. 2686-2/39—E A. G. 237, dated 26th June 1918, the following revised instructions are issued in regard to the inspection of offices by the Efficiency Audit Staff.

2. An Officer or Auditor of the Efficiency Audit Staff will visit from time to time the offices mentioned in Appendix A and such other offices as may be selected for the purpose.

3. The object of the visits will be (a) to ascertain whether there are any avoidable delays in the disposal of official business, *e.g.*, in the disposal of petitions from the public and calls for information from higher officers, in the submission of periodical reports and returns, etc

(b) to report upon the adequacy of the registering and filing arrangements followed in respect of office correspondence,

(c) to ascertain whether rules passed to improve the efficiency of offices and of public servants are understood and observed,

(d) where necessary, to audit the office accounts if they are not subject to regular local audit by the Comptroller's staff, and

(e) to collect any information that may be required by Government in regard to the working of the office.

3. The Officer or Auditor deputed to visit an office should be allowed free access to the office registers and papers.

4. After the examination of each office, a note will be drawn up in the 'accompanying form, Appendix B, and will be sent by the Efficiency Audit Officer to the Head of the Office concerned, who will have full discretion to pass any orders or take any action that he may consider necessary. A copy of the audit note, with a note of the action taken thereon should, however, be furnished to Government for information.

5. The business of the Auditing Officer or Auditor will be confined to the scrutiny of the ordinary office registers and records, etc., and will not in the absence of special instructions to the contrary, include the examination of purely departmental or technical work.

C. S. BALASUNDARAM IYER,

Chief Secretary to Government.

Backward Communities.

No. 751-800—E. A. G. 341, DATED 2ND OCTOBER 1919.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS
THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

READ—

Circular Memorandum No. 79—E. A. G., dated the 20th December 1916, regarding the employment of members of backward communities in the public services.

2. Government Order No. 1069-1118—E. A. G. 247, dated the 25th September 1918, prescribing a revised form for the submission of annual returns of appointments given to the members of backward communities.

3. Reports from the Heads of Departments and Deputy Commissioners of Districts furnishing in the revised form, statistics of appointments given to members of the communities referred to, during the year 1918.

Order No. 751-800—E. A. G. 341, dated 2nd October 1919.

The statistics of appointments given to members of backward classes during the year 1918 are tabulated in the appended Statement A. During the year under review, 1,187 appointments fell vacant, of which 674 were permanent and 513 temporary. Of these appointments 292 permanent or 43 per cent, and 201 temporary or 39 per cent are reported to have been given to persons belonging to backward communities. Though the percentage of appointments given during the year appears somewhat lower than the corresponding percentage for the previous year (*viz.* 432), the difference cannot be considered real, as the figures for the year 1917 included a large number of menial and other inferior appointments which are generally given to members of backward classes.

2. The present statistics show that the principle laid down by Government of giving at least 25 per cent of new appointments to persons belonging to backward communities, has been generally borne in mind. In the case of the Revenue Commissioner's office and the Offices under the Deputy Commissioner, Hassan District, however, the prescribed minimum has not been worked up to. The Deputy Commissioner, Hassan District, has stated that no applications for appointments were received from members of backward communities, while the Revenue Commissioner has furnished no explanation, and he should explain the omission. These officers should make special efforts to secure duly qualified members of backward communities for employment in their respective offices.

3. Statement B is an analysis, according to different grades of pay, of the appointments given to members of backward communities. In the case of the higher appointments carrying a pay of Rs. 100 and above, the proportion of men recruited from backward classes is 39 per cent, and may be regarded as satisfactory. A fairly high percentage is also maintained in regard to the two lowest grades, carrying a pay of Rs. 15 to 25 and Rs. 25 to 50 per mensem, respectively. But in the intermediate grade of Rs. 50 to 100, which represents the bulk of the appointments in the upper subordinate service, only 22 out of 118 vacancies are reported to have been filled by persons belonging to backward classes. If, as laid down in Government Order No. 1069-1118—E. A. G. 247, dated 25th September 1918, the figures furnished refer exclusively to initial appointments and do not take into consideration promotions from lower ranks, they lead to the inference that in making appointments to the upper subordinate service, the claims of backward classes have not been adequately considered. Government are of opinion that greater attention should be paid to the principle of communal representation in cases where direct recruitment to upper subordinate grades is resorted to.

4. The appended Statement C shows that of the backward communities, the Mahomedans and the Indian Christians have obtained the largest share of Government employment. This is perhaps inevitable as these two communities contain a comparatively high percentage of educated persons willing to enter Government service.

No. 751-800—E. A. G. 341, DATED 2ND OCTOBER 1919.

But at the same time Government wish to impress on Heads of Departments and other officers possessing powers of appointment, the need for extending a larger measure of encouragement to non-Brahmin Hindu communities which are educationally more backward and less adequately represented in the public service.

5. There has been great delay in submitting these statistics. The marginally noted officers have taken more than three months to furnish the statements. Government hope that the reports for the year 1919 will be submitted with greater promptitude. If a record of appointments giving the requisite information is regularly maintained, the preparation of the annual statistics should involve no trouble or delay.

Letter No. C. 388—Gl., dated 22nd—25th August 1919, from K. Chandy, Esq., B.A., Revenue Commissioner in Mysore, to the Secretary to the Government of His Highness the Maharaja of Mysore, Revenue Department.

I have the honour to state that in connection with the disputed boundaries between Rallahalli village in Madakasira Taluk and Kannamed, Thimmanaiakanakote villages in Pavagada Taluk, it is reported that a joint inspection was conducted by the District Surveyor of Tumkur and the Land Records Inspector of Madakasira in November 1917 at the desire of the Collector and that there is a difference of opinion as to whether the plots X, Y, Z in sketch No. II and R. S. T. in sketch No. III should be included in Mysore territory or British territory (*vide* joint inspection report and sketches in the records.) With regard to the plot X, Y, Z the inspecting officers are of opinion that it may be included in Survey No. 133 of Kannamed village, whereas the Collector has expressed an opinion that he could not concede the plot to the Mysore territory on the principle of ceding un-mapped portions to the British Government. With regard to the plot R. S. T. the District Surveyor is of opinion that it should be included in the adjoining Survey No. 35 of Thimmanaiakanakote whereas the Land Records Inspector is for its being included in British territory. The same is the opinion of the Collector. The Government Order No. R. 542-51—L. S. 63-16-3, dated 17th July 1917 directs that in all such cases of un-mapped areas the officer representing the Mysore Government at the enquiry, should exercise his discretion and arrive at a decision according to the circumstances of each case which should be submitted to Government for ratification.

2. In these circumstances, I request that you will be so good as to obtain the orders of Government on the two points. As both the bits are beyond our boundary, there is no strong case for us, except that of uninterrupted enjoyment.

3. The entire records are forwarded herewith for reference and kind return.

No. R. 4760-1—L. S. 13-19-2, DATED 29TH OCTOBER 1919.

ENCLOSURE I.

Report on the joint inspection of the discrepant boundary between Kekathi village of Madakasira Taluk and Thimmanayakanakote village of Pavagada Taluk, made by the District Surveyor, Tumkur, and the Land Records Inspector, Madakasira under the orders contained in Anantapur Collector's Rglc. 122, dated 26th October 1917, and Tumkur Deputy Commissioner's No. Mis. C. 746-47, dated 20th October 1917. Having completed the work of Rallahalli and Kannamedu on 15th November 1917, we began the work of Kekathi and Thimmanayakanakote on 17th November 1917, and completed the field work on 21st November 1917. Three sketches showing the results of our inspection are enclosed.

In all these sketches the black-ink lines denote the British boundary according to the Block sheets and the — lines represent the Mysore boundary according to the Tippani of the original survey of 1868-69. The points on the Mysore boundary were checked with reference to the Tippani copy. *Sketch No. I.*

Sketch No. I. At the point A, we found on the ground both the British and Mysore Survey marks, but on checking the measurements, the position of the Mysore mark came to B and it was shifted accordingly. At C the two marks agree. Following the decision contained in G.O. No. 3273, revenue dated 1st November 1912 of the Madras Government, the boundary of the British fields has to be corrected according to the red ink line. Therefore the British stone at A has to be removed to B, a stone has to be planted at D along with the Mysore stone and the stone at E has to be removed. A stone has also to be planted at F, plots D, K, L, and G, F, H, have to be included in and the plot L, A, E, C, has to be excluded from the British territory.

Sketch No. II. British stones have to be planted at X Y Z and N along with Mysore stones. As the British stone at M falls on the line Z N it may be removed. Plots F, H, O, and M N V have to be included in and the plot O X Y Z M has to be excluded from the British territory.

Sketch No. III. The British stone at Q, has to be removed to P. British stones have also to be planted at R, S, and T, along with Mysore stones. The letters N, O, B, have to be carved on the Khandam stone at W, plots N, V, P, and P R S T J Q have to be included in and the plot W, T, I, has to be excluded from the British territory.

The area to be added to or subtracted from the several British Survey fields is noted in the statement below.

S. No.	Extent		To be added	To be deduct- ed		Net decrease or increase		Remarks
34	...	..	..	1	...	81	—	80
35	...	...	...	8	...	...	+	8

38	...	...	...	10	...	14	—	14
31	...	...	1	66	...	18	+1	68

If it is decided to include the plot T, R, S, in sketch No. III, in Mysore territory, an extent of 46 cents has to be excluded from S. No. 31.

There is another point on which we differ. The triangular plot R, S, T, in sketch No. III measuring 46 cents is reported to be in the enjoyment of the pattadar of Mysore S. No. 35. An extent of about 15 cents of this plot is under this raiyat's cultivation (paddy field) and the remaining portion contains a thick growth of *Kanaga* (ಕಾಣಗಾ) trees. The enjoyer states that this plot forms part of Mysore S. No. 35 and requests that his enjoyment may be left undisturbed. His petition and the statement of the villagers are enclosed. The District Surveyor, Tumkur, is of opinion that the triangular plot should be included in Mysore territory and the boundary of S. No. 35 of Timmanayakanakote corrected accordingly. The Land Records Inspector, Madakasira, considers that it is right to include the portion in British territory and to assign it to the enjoyer after collecting back assessment for 10 years as the enjoyer has not paid any assessment either to the British or to the Mysore Government for a number of years. Orders deemed fit may be passed.

ENCLOSURE II.

Report on the joint inspection of the discrepant boundary between Rallahalli village of Madakasira Taluk and Kannamedu village of Pavagada Taluk, made by the District Surveyor, Tumkur and the Land Records Inspector, Madakasira.

With reference to the orders contained in Anantapur Collector's R. Glc. 122, dated 26th October 1917, and Tumkur Deputy Commissioner's No. Mis. C. 746-47, dated 20th October 1917, we began the joint inspection of the discrepant boundary between Kannamedu and Rallahalli on 3rd November 1917, and completed on 14th November 1917. Three sketches showing the results of our inspection are enclosed herein.

No. R. 4760-1—L. S. 13-19-2, DATED 29TH OCTOBER 1919.

Sketch No. I. The black ink line B, C, D, E, F, H, I, and J, denotes the northern boundary of S. No. 73 of Rallahalli village according to the British village map and block sheets. The red ink line represents the southern boundary of Mysore S. Nos. 170, 169, 138 and 137 which are under raiyat's holding. The points on the Mysore field boundary were fixed with reference to the $\frac{1}{2}$ of the Mysore Survey of 1868-69 an extract from which was brought by the District Surveyor, Tumkur. At the points C, D, F, and G, there are on the ground both the British and Mysore survey marks. In other places these two boundaries differ as shown by the red and black lines in the sketch. There is a Vanka forming the natural boundary between the occupied fields of the two villages. The British Survey map and block sheet include the whole of this Vanka together with a portion of Mysore S. No. 169 (under holding) as falling within British limits, whereas the Mysore village map and $\frac{1}{2}$ show that a portion of the Vanka along the boundary of Mysore S. Nos. 170, 169, 138, 137, 135, 134, and 133 belongs to that State. Measurements are not available for the portion of the vanka claimed for Mysore, but at the end of the village account No. 1 (ಖೇತರವಾರ್ಷಿಕ) an entry is found made to the effect that the extent of $\frac{1}{2}$ i.e., streams not included in any survey field is acres 3 and guntas 7. This extent was not arrived at by actual measurement on the ground but by measurements taken by scale.

In the case of a similar dispute between Halukur village of Madakasira Taluk and Arasikere village of Pavagada Taluk it was decided in G. O. No. 3273 Revenue, dated 1st November 1912 of the Government of Madras that the mid-stream line should be taken to be the common boundary and this decision was also accepted by the Mysore Government in their Order No. R. 6068-77—L. S. 44-08-32, dated 22nd April 1913. Following this decision we propose a similar course in this case also. The midstream line proposed to be the future common boundary is denoted by a dotted red line in the sketch. If this is approved, the British Survey stones at C, D, E, F, G, H, I, and J, have to be removed.

Sketch No. II. The above remarks apply to this sketch also so far as taking the midstream line as the common boundary is concerned. The British survey stones at A, B, C, D, E, F, and G, have to be removed.

The triangular plot X, Y, Z, should naturally be included in British territory as it falls out of the Mysore boundary as laid down in the Survey of 1868-69. This plot measuring about 3 cents is under the occupation (there is paddy crop on it now) of the holder of S. No. 133 of Kannamedu with which it forms a contiguous field; whereas the adjoining British land is on a higher level we therefore consider it desirable to include this plot in the Mysore territory. Orders deemed fit may be passed.

In the case of S. Nos. 91 and 92 of Rallahalli the boundary has to be corrected according to the — line as the British Survey did not follow the boundary laid in the Mysore Survey which was earlier. British Survey stones have also to be planted at Z, M, N, and O.

Sketch No. III. The boundary of S. No. 210 of Kannamedu is a single line measuring 1,840 links according to the Mysore original survey of 1868-69. The British survey being later, the Mysore boundary line has to be accepted. At the points, A, and B, there are both British and Mysore survey marks on the ground. The block A C D E has to be excluded from and the block B, C, F, G, has to be included in the British territory. This will also necessitate the removal of the stones at E, D, F, and G, to points on the line A, B, which are 173, 618, 714, and 1,443 links respectively from A.

The area to be added to or subtracted from the several British survey fields is noted below :—

REMARKS.

The following rights are admitted in the block.

A. The following are treated as enclosures.—

I. Survey Nos. 13, 14, 15, 16, 17, 20 and 67 of Sankasi are clubbed together and treated as an enclosure with a margin of 5 chains on three sides. Access to this will be through rights of way Nos. I and II noted below.

II. The hamlet of Kasana situated in Survey No. 58 of Sankasi will be treated as an enclosure with a margin of 5 chains all round. Access to this will be through right of way No. III.

III. Survey No. 55 and the hamlet of Gundavani will be clubbed together and treated as an enclosure with a margin of 5 chains all round. Access to the above enclosure will be through right of way No. IV.

IV. The hamlets of Hampanakodag, (2) Naduvani, (3) Makkikoppa, (4) Kuppekoppa, (5) Valagere and (6) Bangavani of Vagadi village are clubbed together and treated as an enclosure with the following boundaries.

North.—Starting from the north-west corner of Survey No. 27 of Vagadi the enclosure line runs south-east along the common boundary between the said village and Aralakoppa to a point about 11 chains north-east from the northernmost corner of Survey No. 28.

East.—Then the line goes south-east for about 87 chains through Survey Nos. 27 and 19 to a point about 5 chains north-west from the north-east corner of Survey No. 14; then in the same direction for about 74 chains through Survey Nos. 13, 17 and 57 to the south-west corner of Survey No. 39.

No. R. 4751-4—FT. 175-18-6, DATED 29TH OCTOBER 1919.

South.—Then the enclosure line passes south-west for about 50 chains through Survey No. 43 to a point about 5 chains south-east from the south-east corner of Survey No. 45; then south-west for about 46 chains through Survey No. 43 to the north-west corner of Survey No. 127 of Alehalli where it meets the settled demarcation line; then north-west along a halla for about 10 chains and then the same direction for about 48 chains through Survey Nos. 69 to a point on its western boundary about 17 chains west from the south-west corner of Survey No. 68; then north-west for about 61 chains through Survey No. 1 to a point about 24 chains south-west from the south-west corner of Survey No. 9.

West.—Then the enclosure line goes along the common boundary between Vagadi and Kanura to the south-east corner of Survey No. 87 on the latter village; then it continues along the boundary between Vagadi and Sankasi to meet the starting point. Access to it will be through rights of way Nos. V and VI.

V. The hamlets of Mulavalli and Melachittakodagi of Vagadi village, are clubbed together and treated as an enclosure with the following boundaries:—

North.—Starting from a point about 7 chains north-west from the north-west corner of Survey No. 32 of Vagadi the enclosure line runs along the settled demarcation line to meet the Narasimharajapura-Balehonnur high road at a point about 5 chains north-west from the trijunction bandhs of Aralikoppa, Bale and Vagadi villages.

East.—Then the line passes along the settled demarcation line to a point about 7 chains north-west from the north-east corner of Survey No. 40.

South.—Thence the line goes north-west along the southern boundary of Survey No. 39 to its south-west corner.

West.—Then the line continues along the west side of Survey No. 39 to its north-west corner; then north-west for about 51 chains through Survey No. 36 to a point about 20 chains south-west from the north-west corner of Survey No. 32; then north-east for about 22 chains through Survey No. 36 to the starting point. Access to it will be along the two foot-paths branching from the high road.

VI. The western portion of Davana village and Mudavadi a hamlet of Haravari with Survey Nos. 133, 134, 132, 146, 131, 130, 139, 128, 127, 129 and 140 of Aravari are clubbed together and treated as an enclosure with the following boundaries:—

North.—Starting from the westernmost corner of Survey 26 of Davana the enclosure line runs north-east along the northern boundary of the said survey number to its north-east corner; then along the north side of Survey No. 2 to its north-east corner; then north-east for about 4 chains to a point on a halla about 12 chains south-east from the southernmost corner of Survey No. 89 of Kanura.

East.—Then the line passes south-east along the right bank of a halla running through Survey Nos. 20 and 19 of Davana to a point about 3 chains north-east from the easternmost corner of Survey No. 10; then in the same direction for about 21 chains through Survey No. 19 to a point about 5 chains north-east from the north-east corner of Survey No. 29; then south-east for about 78 chains through Survey Nos. 30 and 37 to a point about 5 chains north-east from the southernmost corner of Survey No. 38; then again south-east for about 24 chains through Survey No. 50 to a point about 5 chains north-east from the north-east corner of Survey No. 47.

South.—Then the line goes slightly south-east for about 30 chains through Survey No. 50 to a point about 5 chains south-east from the southernmost corner of Survey No. 48; then south-west for about 15 chains to a point about 5 chains south-west from the south-west corner of Survey No. 49; then south-west for about 26 chains along the common boundary between Advalli and Davana to the north-west corner of Survey No. 193 of the abovementioned former village; then north-west along the west side of Survey No. 129 of Haravari to the south-west corner of Survey No. 128; then along the west side of Survey No. 140 to the westernmost corner of Survey No. 132; then along the north sides of Survey Nos. 132 and 133 to the southernmost corner of Survey No. 39 of Davana then along the common boundary between Davana and Haravari to the south-west corner of Survey No. 41 of the former village.

West.—Then it continues along the common boundary between Davana and Haravari to the starting point. Access to it will be through rights of way Nos. VII, VIII, IX and X.

VII. Survey Nos. 103, 104, 105 and 147 of Haravari are clubbed together and treated as an enclosure with a margin of 5 chains all round. Access to it will be through the right of way No. VII.

VIII. Survey Nos. 111, 112, 123, 124, 122, 121, 120, 119, 118, 157 and 125 and a portion of Survey No. 117 of Haravari are clubbed together and treated as an enclosure with the following boundaries:—

No. R. 4751-4—Ft. 175-18-6, DATED 29TH OCTOBER 1919.

North.—Starting from a point on the settled demarcation line about 16 chains north-east from the northernmost corner of Survey No. 114 of Haravari the enclosure line runs north-east for about 18 chains through Survey No. 108 to a point about 7 chains north-east from the north-east corner of Survey No. 111.

East.—Then the line goes slightly south-east for about 24 chains through Survey No. 108 to a point about 5 chains east from the easternmost corner of Survey No. 112; then south-west for about 14 chains through Survey No. 108 to a point about 7 chains south-east from the south-east corner of Survey No. 112; then south-east for about 10 chains to a point about 6 chains north-east from the northernmost corner of Survey No. 124; then south-east for about 10 chains through Survey No. 117 to a point about 5 chains south-east from the north-east corner of Survey No. 124; then south for about 14 chains to a point about 5 chains south-east from the easternmost corner of Survey No. 124; then south-west for about 7 chains to a point about 5 chains south-east from the south-east corner of Survey No. 124; then in the same direction for about 13 chains to a point about 7 chains north-east from the north-east corner of Survey No. 119; then south-east for about 22 chains to a point about 5 chains north-east from the north-east corner of Survey No. 118; then again south-east for about 19 chains to a point about 6 chains north-east from the north-east corner of Survey No. 157; then north-east for about 9 chains through Survey No. 126 to a point about 7 chains north-east from the north-east corner of Survey No. 125; then south-east for about 32 chains to a point on the south side of Survey No. 126 about 16 chains south-east from the south-east corner of Survey No. 125.

South.—Then the line passes south-west and north-west along the common boundary between Haravari on one side and Karkesara and Adavalli on the other, to the south-west corner of Survey No. 117.

West.—Then the line runs north-west along the west side of Survey No. 117 to a point about 5 chains south-east from the southernmost corner of Survey No. 62 of Haravari where it meets the settled demarcation line; then along the settled demarcation line to meet the starting point. Access to it will be through the rights of way Nos. X and X(a).

IX. The hamlet of Bilalakoppa and Ulvadi and some cultivation lands of Adavalli will be clubbed together and treated as an enclosure with the following boundaries.

North.—Starting from the south-west corner of Survey No. 93 of Adavalli the enclosure line runs north-east through Survey Nos. 93 and 89 of Adavalli to the westernmost corner of Survey No. 97, then along the settled demarcation line for about 30 chains to a point about 16 chains south-west from the south-west corner of Survey No. 95.

East.—Then the line goes in a south-easterly direction along the settled demarcation line to a point about 13 chains north-west from the north-west corner of Survey No. 21 of Megarmakki.

South.—Then the line passes south-west along the common boundary between Adavalli and Megarmakki for about 47 chains to a point on the right bank of a halla about 7 chains north-east from the south-east corner of Survey No. 77 of Adavalli; then north-west along the settled demarcation line to a point about 4 chains north-east from the north-east corner of Survey No. 143 of Karkesara.

West.—Then the line runs north-west along the settled demarcation line for about 34 chains to a point about 15 chains south-west from the north-west corner of Survey No. 91 of Adavalli, then north-west for about 20 chains along the common boundary between Adavalli and Karkesara to meet the starting point. Access to it will be through rights of ways Nos. XI and XIV.

B. The following rights of way are admitted within the State Forests for use by men and cattle in case of foot-paths which are 6 feet in width, and by men, cattle and carts in case of cart-tracks which are 15 feet in width, throughout the year.

I. *Foot-path leading from Chorapur (hamlet of Sankasi) to enclosure No. 1.*—It enters the forest in the western boundary of the block at a point about 13 chains south from the southernmost corner of Survey No. 70 of Sankasi and runs north-east through Survey No. 12 for about 14 chains and reaches the enclosure No. 1 at a point about 5 chains west from the south-west corner of Survey No. 20.

II. *Foot-path branching from the foot-path No. I supra and going to Survey No. 13 in the enclosure No. 1.*—It enters the forest in the western boundary of the block at a point about 11 chains from the north-east corner of Survey No. 57 of Sankasi and runs east for about 3 chains through Survey No. 12 and reaches the enclosure at a point about 10 chains north-west from the westernmost corner of Survey No. 13.

III. *Foot-path from Chorapur to Kasana (hamlets of Sankasi).*—It enters the forest in the western boundary of the block at a point about 7 chains south-east from the

Government Notification No. R. 4678—Ft. 115-07-3, dated 27th January 1908, issued under Section 4 of the Forest Regulation in the matter of the proposed constitution of the Megarmakki Forest Block in the Narasimharajapur Sub-Taluk

2. Letter No. C. 3451, dated 13th—18th March 1919, from the Revenue Commissioner in Mysore, forwarding the Forest Settlement Officer's letter No. 358, dated 25th November 1918, reporting on the conclusion of the settlement of the block and recommending that the concessions allowed by the Deputy Commissioner may be approved.

3. Letter No. R. O. C. 154—H., dated 4th—6th June 1919, from the Conservator of Forests in Mysore, agreeing to the settlement as effected by the Forest Settlement Officer and stating that the decision of the Deputy Commissioner allowing certain concessions to the villagers need not be admitted as the appeals were time-barred and as there is enough of land for the villagers for their domestic purposes.

Order No. R. 159-60—Ft. 175-18-4, dated 2nd July 1919.

The settlement effected by the Forest Settlement Officer is approved. The Revenue Commissioner in Mysore is requested to get the notification under Section 17 altered accordingly and submit the same for publication in the *Gazette*.

• *Copy of Appeal Decision of Megarmakki Block.*

In the matter of appeals preferred by the raiyats of Megarmakki and Adavalli villages and of Haravari and Vaggade, against the decision of the Forest Settlement Officer on the settlement of Megarmakki Block in Narasimharajapur Sub-Taluk.

The settlement of Megarmakki Block was effected by Mr. C. Venkata Rao, the then Forest Settlement Officer, on 16th March 1912. Against the decision, the raiyats of Megarmakki and Adavalli villages preferred an appeal to the Deputy Commissioner, Kadur District, on 3rd May 1912; while this appeal was pending disposal, Mr. Santappa Chetti of Haravari village, appealed to Deputy Commissioner on 29th October 1912, and the raiyats of Vaggade also appealed to the Dewan Saheb against the said decision. The latter petition was received for disposal on 14th December 1913. These petitions were considered along with the appeal petition preferred in time by the raiyats of Megarmakki and Adavalli villages. These appeals were finally posted for hearing at Chikagrahar on the 7th February 1918, when the objections of the raiyats of Megarmakki, Adavalli, Konur, Haravari, Vaggade, Karkesara, Davana and Sankase were heard and the settlements records perused.

The grievances represented by the villagers may be classified under the following three main heads.

No. R. 4751-4—FT. 175-18-6, DATED 29TH OCTOBER 1919.

1. That gomal lands now left for their village cattle are not sufficient to meet the grazing requirements.

2. That gomal lands so left are not only insufficient but also inaccessible and far away from villagers.

3. That they cannot get sufficient quantity of green leaves required for the cultivation of Bagayat lands, fuel for boiling arecanut and for other domestic purposes, and timber, thorny shrub, bamboos, etc., for their *bona fide* agricultural purposes from the few soppinbettas and the gomal lands now made available to them.

Some of the grievances appear to be no doubt real but the raiyats have exaggerated them and made unreasonable demands inasmuch as some of them have gone to the length of praying that all the gomal, kharab and assessed waste lands, now included in the block should be excluded from the reserve; while some others have protested against the formation of the block itself into a State Forest. After careful study of the question in all its aspects, I consider that in the interests of the Agricultural population of the villages affected by the settlement, the following modification in the Settlement Officer's decision is necessary and I accordingly direct as follows:—

Megarmakki.—Out of the total extent of 189 acres and 3 guntas of gomal Survey No. 26, an area of 156 acres and 3 guntas has been taken up for the State Forest, leaving only 33 acres for the use of the villagers. In this excluded portion of 33 acres the houses and cattle sheds of the raiyats exist. There is no doubt adequate provision made for the grazing requirements of the village cattle by setting apart 1,469 acres of gomal land for 350 head of cattle in the village but these bits of land are situated somewhat far away from the village habitations and as such they are not frequented by the village cattle generally. Gomal Survey No. 26 being conveniently situated, the village cattle have necessarily to go to this number for grazing purposes. It is also represented that raiyats depend on this number alone for their supply of fuel, timber, thorny bushes, etc., required for their *bona fide* domestic and agricultural purposes. I therefore direct that the whole of Survey No. 26 be excluded from the State Forest and the demarcation line shifted accordingly.

Adavalli village.—The grievances of the raiyats of this village about the insufficiency of gomal land left for their village cattle and their hardship to get timber, fuel, etc., for their *bona fide* domestic and agricultural purposes are more imaginary than real inasmuch as about 2,364 acres of gomal land have been made available for about 539 head of cattle in the village and this is in my opinion more than ample to meet the grazing requirements and other agricultural needs of the village. I therefore confirm the decision of the Forest Settlement Officer.

Haravari village.—This village has an area of about 162 acres under bagayat cultivation. Survey No. 54 which is a soppinabetta is the source of supply of green leaves, fuel, timber, etc., required for the *bona fide* domestic and agricultural purposes of the bagayat and wet land holders of Survey Nos. 56, 57, 59, 75, 74 and 154 of the village. The inclusion of Survey No. 54 in the Forest Reserve is real hardship to the raiyats. I therefore direct that the said Survey No. 54 be excluded from the Forest Reserve and the demarcation line shifted.

Davana.—This village is hemmed in on all sides by the State Forest, the village cattle have therefore necessarily to go to the State Forest for grazing purposes as the demarcation line runs quite close to the village. The raiyats of the village may therefore be permitted to graze their cattle free in the State Forest.

Vaggade.—The settled demarcation line runs on all sides of the village and quite close to it. The whole village is treated as an enclosure. The gomal land now allotted for the village cattle is not quite sufficient to meet the grazing requirements, as only 210 acres of gomal land is made available for 362 head of cattle in the village. The right of free grazing in the State Forest may be conceded to the raiyats of this village.

Sankase and Kanur villages.—These villages have 195 acres and 35 guntas and 460 acres and 34 guntas of gomal lands set apart for 239 and 422 head of cattle, respectively. As it is not quite sufficient to meet the grazing requirements of the village, the raiyats of these villages may also be allowed the right of free grazing in the adjacent State Forest.

Karkesara village.—This village has an area of 206 acres under bagayat cultivation, and the village is in a flourishing condition. In consideration of prospective expansion of bagayat cultivation, the extent of gomal land now left may in course of time be found insufficient to meet the *bona fide* agricultural and domestic needs of the village. I therefore direct that the settled demarcation line between the limits of Haravari and Adavalli villages be shifted forward by ten chairs.

NO. R. 4751-4—FT. 175-18-6, DATED 29TH OCTOBER 1919.

Letter No. 358, dated 25th November 1918, from the Forest Settlement Officer in Mysore, to the Revenue Commissioner in Mysore.

I have the honour to report on the conclusion of the settlement of Megarmakki Block in Narasimharajapura Sub-Taluk, Kadur District.

2. The initial notification under Section 4 of the Forest Regulation, proposing to constitute the area into a State Forest appeared on pages 73 to 76 of the English issue of the *Mysore Gazette*, Part I, dated 30th January 1908. The proclamation under Section 5 of the said Regulation was issued on 10th March 1908, by Mr. M. Shama Rao, the then Forest Settlement Officer, and the same published on pages 121, 122 and 123 of the Kanarese issue of the *Gazette*, Part II, dated 19th March 1908. The spare copies of the notification were get served on the villagers concerned through the Deputy Amildar, Narasimharajapura by Mr. Shama Rao himself.

3. The settlement work was completed by my predecessor Mr. C. Venkata Rao on the 16th March 1912, but the records were in appeal before the Deputy Commissioner till 15th April 1918, and they were received in this office for the preparation of the completion report, etc., on 2nd May 1918. The block being a big one, the preparation of the sketch, etc., took time.

4. The following 19 claims seem to have been preferred to Mr. C. Venkata Rao as seen from the records:—

- (i) Twelve claims to miscellaneous rights.
- (ii) Seven claims to right of way.

All the claims in (i) were admitted and out of 7 claims in (ii) six were admitted and one rejected.

5. The appeal decision is noted in the proper column in the "B" Register.

6. I shall be guilty of dereliction of duty if I do not bring to the notice of Government, the novel procedure adopted in the case by the Deputy Commissioner as it is a question of law. From the 1st para of the appeal decision (copy enclosed for ready reference) it is clear that the date of the Forest Settlement Officer's decision was 16th March 1912, and that the raiyats of Megarmakki and Adavalli villages alone preferred an appeal to the Deputy Commissioner on 3rd May 1912, while this appeal was pending disposal, one Santhappa Setti of Haravari appealed on 29th October 1912. This is clearly barred by limitation under Section 15 of the Mysore Forest Regulation. The raiyats of Vaggade are said to have appealed to the Dewan Saheb and the petition was received in the Deputy Commissioner's Office on 14th December 1913. This appeal, even if it can be called an appeal at all, is clearly time-barred. So, the appeals of the villagers of Haravari and Vaggade were clearly out of time and were not entitled to be heard. They only deserved to be summarily rejected. But as a matter of fact, these two villagers have been heard but also the villagers of Kanur, Karkesara, Davana and Sankasi who had not appealed at all (*vide* the latter part of the 1st para of the appeal decision). As this looked quite unusual to me, I have brought it to the notice of Government for such action as they deem fit.

7. The following records are herewith submitted.

- (i) "B" Register
- (ii) "C" Register
- (iii) Boundary Notification
- (iv) Sketch map
- (v) Topo tracing.

8. The date from which the reservation is to take effect may kindly be inserted in the draft boundary notification.

Thinnmegowda, Patel of Megarmakki for the villagers.	16-3-12	The line being too close to the cultivated lands and the dwelling houses of Chowdegowda it should be shifted further.		Only a small portion has been proposed for the forest and so only cultivation margins need be given.	The forest line being too near the dwelling house and cultivation lands it will be shifted further east.	The other grounds in the village being too far and Survey No. 25 being conveniently situated to the village it will be wholly excluded from the forest.
		2. The foot-path to Guddeswara may be allowed.	...		Admitted.	
Thinnmegowda, Patel of Karkesara for the villagers.	Do	There being a lot of cultivated lands between Karkesara-halla and Gubbur-halla and also there being many soppinbetas in that region, whole of the ground between the said two hallas may be excluded.		The present line runs through a lot of areca gardens and it is necessary to provide sufficient area as soppinbetas for garden cultivation. So the line may be changed.	This is a mountainous village with patches of cultivation scattered all over. The boundary line runs zig-zag along the stream on either side of which there is cultivation. The cultivators of the lands in the majre Hunsakoppa and other two hamlets being hemmed in on two sides by two jungle streams, provision has to be made for their requirements within the jungle bounded by these streams. I therefore change the line as shown in the sketch. This deviation will obviate the treatment as enclosures of some hamlets and several lands under cultivation as also some assessed waste survey numbers now lying waste which may be taken up for cultivation in the near future.	The village has an area of 200 acres of bagayat lands and is in a flourishing condition. In consideration of prospective expansion of bagayat cultivation the extent of forest now left may in course of time be found insufficient to meet the agricultural and domestic needs of the village. I therefore direct that the settled demarcation line between the limits of Haravari and Adavalli villages be shifted forward by ten chains.
		3. The path-ways shown in the village map should be granted.			Right of way to the cart-tracks leading to Adavalli passing through Survey No. 125 and another cart-track leading to the high road both 15 feet wide will be allowed throughout the year as also to the foot-path leading to Haravari.	

No. R. 4751-4—Ft. 175-18-6, DATED 29TH OCTOBER 1919.

3	Ganappiah, Patel of Haravari on behalf of the villagers.	13-3-12	Says that the preliminary demarcation line runs at the edge of several arecanut gardens. The western portion of their village has all been taken up by European Coffee Planters. So the line may be shifted further away so as to exclude the coffee estates Survey Nos. 118 to 124.		The preliminary demarcation line may be slightly altered where it follows the cultivation lands and the other survey numbers which remain in the block may be treated as enclosures.	This is interspersed with patches of areca-nut gardens all over the village except in its eastern portion. It is not possible to treat so many numbers as enclosures in the block, moreover the line has to be shifted to avoid numerous curves which it now takes. I accordingly direct to alter the line as shown in the sketch. Survey Nos. 118 to 122, 124, 125 and 157 are under coffee cultivation. Muthiah, the owner of the above lands, has applied for some more lands for cultivation. There is every likelihood of his bringing these under cultivation. I would exclude a portion of Survey No. 117 with a view to its being taken up on darkhasth. I accordingly direct that an enclosure be formed as marked in the sketch. Survey Nos. 111, 112, 109, 101, 105 and 147 are treated as enclosures.	The inclusion of Survey No. 14 a soppinabetti which is the source of supply of sugar, fuel, timber, etc., to the bagayat and wet land holders of Survey Nos. 56, 57, 59, 75, 71 and 151 in the State Forest is not prejudicial to the interests. I therefore direct that the said Survey No. 14 be excluded from the Forest Reserve.
		...	2. Adequate kharab lands for soppu and other purposes may be left around the majre Mudavadi village in Survey No. 140.	...		The hamlet of Mudavadi with Survey Nos. 133, 134, 132, 146, 131, 130, 139, 128, 127, 129 and 140 forming a block in the north-east corner of this village will be treated as an enclosure. Survey No. 140 being a soppinabetti, is indispensable for the use of the raiyats of Mudavadi and it has been excluded.	...
		...	3. Rights of way to the foot-paths leading to Vagadi and Davana may be admitted.	...		Rights of way to the foot-paths leading to Davana, Vaggade, Mudavadi, Muthiah's Coffee Estate and Survey Nos. 111 and 112 will be admitted throughout the year.	..
4	Ramachandrab, leading raiyat of Kanur, on behalf of the villagers.	16-3-12	Represents that 10—16th of the lands in his village have been proposed for Megarmakki Block. As a large extent of occupied lands are arecanut gardens, the jungle situated in the neighbourhood is required for the use of the raiyats. So the preliminary demarcation line may be shifted as shown by him on the map.	...	Instead of allowing the present line to follow the Kanur stream the cultivated portion of the village situated to the east of the stream may be excluded	About 14 acres of land out of Survey Nos. 56 and 57 have been given out for cultivation, vide Government Order No. R. 7195-97—Ft. 107-19-2, dated 23rd April 1910. The bit has therefore to be excluded, the portion adjoining this slip of land is reported to be fit for coffee cultivation and is likely to be taken up for that purpose. Mr. F. Parton has represented that, in case a large extent of land cannot be left out of the reserve, 40 acres may be granted to him. The preliminary demarcation line includes large patches of cultivation scattered over in three different localities. I would exclude all these lands and accordingly direct the alteration of the line as shown in the sketch.	As the some lands left are not quite sufficient to meet the grazing requirements of the village, the raiyats of this village must be allowed the right of free grazing in the adjacent State Forest.
		...	2. Right of way to the foot-path leading from Survey No. 49 to the Vagadi limits and from there to Halagiri Ammanagudi in Survey No. 57 of Vagadi is required.	...		Right of way prayed for is granted.	...

The Deputy Commissioner's appeal decision has been cancelled.

5	Narasimhaachar, patel of Sankasi, on behalf of the villagers.	13-3-12	States, that portions of the jungle close to the Majre villages of Gudahal and Churnur and Kusana may be excluded for the benefit of the raiyats.	..	The existing line along the Kanur village boundary up to the south-east corner of Survey No. 3 may be retained as it is. Some margin all round the cultivation lands may be allowed as shown by me on the sketch Survey Nos. 55, 59, 67, 115 to 17 and 20 may be treated as enclosures.	About 1492 acres and 34 guntas of kharab gomal and assessed waste lands of the village has been proposed for the reserve, 595 acres have been proposed to be included in the Malandur State Forest. The remaining area, viz., 365 acres is apparently sufficient for 155 persons and 214 heads of cattle in the village. The boundary line runs at the edge of cultivated lands and is very irregular. Besides some dwelling houses situated in the proximity of Survey Nos. 25, 11 and 10 lie in the Reserve itself. I therefore direct the changing of the line as shown in the sketch. As a darkhast has already been received for Survey Nos. 15, 16, 17 and 20, they will be treated as enclosures within the block as also Survey Nos. 67, 14 and 13. The hamlet of Kusana in Survey No. 58 will be demarcated out free from reservation with a margin of 5 chains all round. Survey No. 55 being an occupied land and the hamlet of Gundavani in the neighbourhood in Survey No. 54, will also be demarcated free from reservation. Access to the above will be along the 4 foot-paths leading from the Majre Choranoor village.	As the gomal area left for the village is not sufficient to meet the grazing requirements of the village, the raiyats of this village are allowed the right of free grazing in this State Forest.
6	Siddagowda, patel of Vaggadi on behalf of the raiyats.	15-3-12	2. Cart-tracks leading from Choranoor to Sankasi from Survey No. 38 to Gubbiga and from there to the Koppa-Yedehalli High road are required.			(2) Not granted as being unnecessary.	
			Says that the village of Vaggadi has 9 hamlets attached to it and they are scattered over the village lands. Each hamlet has to be provided with pasture lands for cattle and jungle for obtaining fuel and soppu for a mile around. The whole of this village is proposed to be included in the block. This causes great inconvenience to the villagers.		The whole village is inside the present boundary and therefore it may be treated as an enclosure by leaving sufficient lands around the cultivation for the exercise of the existing rights and privileges.	Almost the entire village is proposed to be included in the reserve and it is not possible to deal with it otherwise than treating it as an enclosure, owing to the forest boundary running on either side of the village. It consists of nine hamlets scattered over the village lands with a belt of cultivated lands. In the interests of the raiyats of these hamlets an extent of land round each of them, has to be excluded also from reservation. The hamlets of (1) Hampanakodagi, (2) Nadavani, (3) Makkikoppa, (4) Kuppekoppa, (5) Valageri, (6) Bangavani and that the temples situated in Survey No. 1 will be demarcated out free from reservation as shown in sketch. The hamlets of Mulevalli and Meluchattukodagi will be clubbed together and formed into an enclosure as shown in the sketch.	The whole village is treated as an enclosure. The gomal land left for the village cattle is not sufficient to meet the grazing requirements. So the right of free grazing may be conceded to the raiyats of this village.
			2. The temples of Thirumala Devaroo and Halagerinmma are situated on the hill in Survey No. 1. A large jatra takes place annually. These are to be treated as enclosures with camping ground in case they cannot be excluded.				
			3. Right of way to the temples noted above from all the hamlets may be granted. Foot-paths from Malvalli and Melachitti Kodagi to Balahonnur High road may also be allowed.			All the foot-paths prayed for remain within the enclosures.	

The Deputy Commissioner's appeal decision has been cancelled.

No. R. 4751-4—F.T. 175-18-6, DATED 29TH OCTOBER 1919.

B.—Register of claims to lands, rights to forest produce or easements in the proposed Megaramakki Block State Forest—*concl'd.*

Serial No.	Names of claimants	Date of presentation of claim	Nature and extent of claims preferred	Brief summary of the evidence adduced in support of claims	Brief summary of the Forest Officer's arguments and evidence produced by him	Brief abstract of decision and final disposal of the claims by the Forest Settlement Officer	Brief abstract of decision, if any, of Court of final appeal and settlement
1	2	3	4	5	6	7	8
7	Siddagowda, Patel of Alehalli, on behalf of the villagers.	15-3-12	Says that most of the lands were taken for the Kusagal State Forest seven years ago. Hence the villagers ill-afford to spare any lands for Megaramakki reserve.		The hamlets of Mundemane and Hegalavani may be treated as enclosures by leaving sufficient land around cultivation. The surrounding area is too valuable to be excluded.	As already an extent of 5,754 acres of this village has been included in the neighbouring Kusagal State Forest it is unfair to trench upon its lands further. I would altogether exclude the lands of this village from the reserve.	
8	Sesha Heggade, Patel of Davana, on behalf of the raiyats.	14-3-12	Represents that the whole village is included in the proposed reserve. Adequate provision may be made for the raiyats' requirements and the remaining extent included in the State Forest. 2. Rights of way to the foot-paths leading to Vaggade and Alehalli are required. 3. The temple of Yargatha Anna in Survey No. 40 is also required.		The whole village lies within the boundary and therefore all the hamlets may be treated as enclosures.	Almost the entire village is proposed to be included in the reserve and it is not possible to deal with it otherwise than treating it as an enclosure. So a portion of this village will be demarcated out as an enclosure free from reservation as shown in the sketch. Right of way to the foot-paths leading to Vaggade to Nadavani passing through Survey No. 19 and to Alehalli passing through Survey No. 30 are admitted for use by men and cattle throughout the year. This survey number remains inside the enclosure.	This village is hemmed in on all sides by the State Forest. The village cattle have therefore necessarily to go to the State Forest for grazing purposes as the demarcation line is quite close to the village. The raiyats of the village may therefore be permitted to graze their cattle free in the State Forest.
9	Bishtiah, resident of Yedeballi and holder of lands in Adavalli.	Do	States that the strip of lands beginning from Survey No. 105 to 125 is in his holding. He is enjoying the right of removing soppu for his lands from Survey Nos. 130 and 101 which are Soppinbettas. The paddy fields of the hamlet of Thoravani depend for Soppu on Survey Nos. 47 and 74. The cattle of the village graze in the above mentioned survey numbers and the raiyats depend upon them for fuel, etc. So the Soppinbettas may be excluded.		The whole are under cultivation may be treated as an enclosure by leaving sufficient land for the use of the raiyats.	About 1,300 acres has already been taken for Kusagal State Forest. It is now proposed to include about 1,500 acres within this block. Some of the Soppinbettas proposed to be included have to be treated as enclosures as it is not possible to exclude them. The demarcation line is accordingly shifted as shown in the sketch. Right of way to the cart-track leading to Yedeballi High road from Hunsekoppa and to the foot-path leading from Harokoppa to the High road are admitted throughout the year. B. BASAVARADHYA, Forest Settlement Officer in Mysore. 14-3-1912.	The grievances of the raiyats of this village about the insufficiency of the gomal land left for the village cattle is more imaginary than real. I therefore confirm the decision of the Forest Settlement Officer.

Letter No. T. A. D. C. 200, dated 22nd August 1919, from the Comptroller suggesting certain changes in the procedure as regards the payment of foreign scholarships.

2. Correspondence ending with letter No. H C. 206, dated 10th September 1919, from the Inspector-General of Education on the subject.

Order No. 3240-90—Edn. 5-19-34, dated 13th October 1919.

According to the procedure in force at present a requisition has to be made every quarter by the Inspector-General of Education to the Comptroller who then arranges for the disbursement of Foreign Scholarships through Messrs. Coutts & Co. With a view to avoid the delay and correspondence this is said to involve, the Comptroller suggests that payments of scholarships in foreign countries on due dates may be authorised once for all for the full period sanctioned by Government subject to the deductions for cost of equipment and any other advances drawn by the scholar and that if on account of unsatisfactory progress or other cause it becomes necessary to stop payment, it can be arranged for on the Inspector-General of Education advising the audit office of the same.

2. Government are pleased to approve of the revised procedure suggested by the Comptroller and concurred in by the Inspector-General of Education. Arrangements should be made by the officers concerned to intimate to the Comptroller at once any orders affecting the payment of the scholarship to enable that officer to issue necessary instructions to Messrs. Coutts & Co., at once.

READ—

Letter No. 66—H. C., dated the 25th July 1919, from the Inspector-General of Education in Mysore, recommending in accordance with a resolution of the Mahomedan Educational Conference that a reserve of Mahomedan teachers may be appointed at a recurring cost of Rs. 7,380 per annum to facilitate the filling up of vacancies arising in the Hindustani Branch of the Educational Service.

Order No. 3187-8—Edn. 89-19-8, dated 8th October 1919.

Having regard to the number of posts both in Anglo-Hindustani Schools and in the Inspectorate for Hindustani Schools, for which Mahomedan Officers are necessary, Government do not consider it necessary to have a large reserve of 17 officers as recommended by the Inspector-General of Education. They are pleased to sanction a reserve of three teachers, one Graduate on Rs. 70 per mensem and two S.S.L.C's on Rs. 30 per mensem each temporarily for a period of three years, the cost involved during the current year being met by re-appropriation of sanctioned grant in the budget of the Education Department.

2. The Inspector-General of Education is requested to obtain proper agreements from the candidates to ensure that the persons accepting these reserve appointments do not regard them merely as a means for obtaining some temporary employment but will continue sufficiently long in the Department to enable them to be absorbed in regular vacancies and allow of the reserve being maintained continuously. The Inspector-General of Education is requested to make adequate arrangements for keeping the men fully and continuously employed.

Government Order No. 5792-3—I. and C. 284-17-8, dated the 23rd December 1918, sanctioning the institution of a Provident Fund for the benefit of the workmen employed in the Central Industrial Workshop, Bangalore.

2. Correspondence ending with letter No. 11058-931, dated the 20th May 1919, from the Director of Industries and Commerce in Mysore, recommending that the benefits of the Provident Fund may be extended to all men on the staff of the Industries and Commerce Department and to those in temporary service for a period of not less than five years.

Order No. C. 29-30—I. & C. 215-18-4, dated 2nd October 1919.

Government are pleased to direct that a Provident Fund be started for all temporary employees of the Industries and Commerce Department, excepting those referred to in the Government Order read above, Government contributing 25 per cent of the employees' contribution so long as the employee continues in the non-pensionable branch of the Industries and Commerce Department. The contribution will be charged to the same head of expenditure as the pay of the men concerned.

Town for the Mysore Iron Works, Benkipur.*

Messrs. C. P. Perin and S. M. Marshall, the Consulting Engineers of the Managing Agents of the Mysore Iron Works, have prepared detailed estimate for the whole scheme in which there is a lump sum provision of Rs. 3 lakhs for the site and Bungalows.

2. Government have in their Order No. 12260-7—I. & C. 294-18-2, dated 24th June 1919 raised the expenditure on this item to a limit of Rs. 5 lakhs.

3. Details have been made out now for only the residential buildings, etc., that go to form the New Town to be built in connection with the scheme. As the layout of the town has not yet been settled, only lumpsum provisions have been made for other items such as, formation of roads, and miscellaneous works for the buildings, etc.

4. The cost of the acquisition of the lands required for the factory and New Town is not included in the estimate as the same is not exactly known. The Deputy Commissioner has roughly estimated it at Rs. 15,000. Acquisition proceedings are in progress.

5. The New Town consists of two parts (1) for the officers and officials and (2) for the coolies.

6. In consultation with Mr. Richardson, the General Superintendent, who is appointed by the Agents and who has already come to Benkipur and who will be the Superintendent during the operation period of the works, I have prepared a statement showing the staff that is likely to be employed on works with their probable salaries, and also another statement showing the number and type of buildings with their approximate cost to accommodate them. These statements are enclosed for reference.

7. *Site.*—The first site that was selected for the New Town was on the Jennapur Ridge in the first mile of Benkipur-Umblebyle road. The State Architect inspected the locality and selected the second site on the main ridge between Anehalli and Anekoppa village. The layouts for both these sites were made out. Mr. Perin inspected the place in March 1919 and disapproving both of these sites on the score that they were inconveniently too far from the factory, selected the site quite adjacent to the factory to the south of it.

No. C. 75-8—I. & C. 6-19, DATED 7TH OCTOBER 1919.

8. Mr. Perin has taken the plan showing this site with levels to New York for laying it out, the result of which is awaited. An area of 75 acres to the south of the factory has been proposed for officers' and officials' quarters and 500'—800' or about 9 acres for the coolie's block to the north-east of the factory site in the Anehalli village. Anehalli village plan showing these sites is enclosed.

9. *Design.*—In designing the different types of buildings, I have consulted the drawings of buildings constructed on Jamshedpur Iron and Steel Works, the temporary camp at the Krishnarajasagara Works, the buildings at Sivasamudram and Bethamangala. The accommodation provided is generally according to the status of the occupant and is practically the minimum. A statement showing the accommodation provided in each type of building is prepared and enclosed.

10. Mr. Perin while scrutinising the plans remarked that two more rooms may be added to the A type bungalows, preferably in the first floor. This has not been attended to with a view to put down the cost to a minimum consistent with the convenience of the officers.

11. A plan for the Guests' Quarters is prepared on the plan of that at Jamshedpur with small improvements thereto but omitted in the abstract estimate to reduce the total cost. It is a necessity but the construction of the same may be postponed until such time as the return on the scheme justifies it.

12. Similarly, plans and estimates for educational buildings were prepared but not included in the abstract estimate for the same reason. For the immediate requirements of the New Town, the schools that already exist in the town of Benkipur can advantageously be utilised, the distance being only about a mile.

13. Plans for Jamadar's Quarters, a *pukka* Police Station and Constables' Lines were also prepared and estimated for, but the General Superintendent, Mr. Richardson, considers that so much Police establishment is unnecessary. He thinks that the establishment of one Daffedar and six constables is all that may be necessary. I agree with him as there is a Jamadar already located at Benkipur with a fully equipped Police Station. All that is wanted for the factory works is simply Police watch and anything beyond watch may be handled by the Benkipur Jamadar and his staff.

14. A building for the Post and Telegraph Office is provided at a cost of Rs. 5,081 in the estimate. The plan is as per standard design of that department and was supplied by them. I very much doubt the necessity for this building. There is already a Post Office in the town of Benkipur and if we show that there is sufficient work in the Telegraphic Department, the Postal and Telegraphic authorities are bound to provide for the telegraphic section also. However the provision may be allowed to stand and the building need not be constructed until there is absolute necessity for the same.

15. Mr. Subramanyam, the State Architect, after inspecting the place selected a site of his own, made out a layout 400'=1" and designs to a scale of 20'=1" to suit his layout for the important buildings. These have not been adopted partly as they were designed to suit his layout which is a garden layout and partly to save time which it would take to make out the detail and complete drawings and estimates. The work is considered very urgent and has to be started immediately. Mr. Perin has approved of every plan of the buildings made by me and considers that these designs will quite suit the site he has selected for the New Town. Being situated as it is, so close to the factory, it need be considered, at best only as the factory town and should be so designed. The designs made for a garden town are ill-suited for a factory town. I therefore think that my designs for the buildings may be adopted.

16. *Coolie Blocks.*—Several designs were made out for the coolie lines. The Sanitary Commissioner and Mr. Perin have approved finally of double room blocks, both on account of the cost and from the sanitary point of view and this has been adopted.

17. According to Mr. Richardson's estimate, 26 laskars and 564 coolies including Khajasies, Mechanics, miscellaneous clerks, moulders, and maties, etc., both male and female, are likely to be employed on the works during operation period. To accommodate these, more than 250 double room blocks will be required. But, for the present, he has agreed to build only 150 blocks on the assumption that two or three coolies of the same family sometimes go into one room and that some of the coolie sheds constructed during construction may be allowed to stand for some years with a small additional expenditure. He also feels that contractors who may take up the building works are likely to build some coolie lines at their own cost, which may advantageously be taken over at nominal cost at the end of construction, and maintained for accommodating some of the coolies. The estimate therefore provides for only 150 blocks of two rooms each. Later on when these temporary buildings become absolutely unserviceable, others may be constructed permanently.

18. The site for the coolie block is so selected that they are sufficiently near to the factory site and the coolies in going to the bazaar are not to go through the new town. Mr. Perin selected this site as the best considering everything.

19. In all such schemes it is usual to provide buildings for shops and weekly markets. These are not provided for with a view to firstly reduce the cost and secondly, on account of the existence of shops and market in the old town of Benkipur. A new market and line of shops may eventually be built if there be an absolute need for them.

20. *Water-supply and drainage.*—This estimate does not provide for these items. In Mr. Perin's estimate of August 1917 he provides Rs. 1,50,000 and Rs. 60,000 respectively for these items under headings D. 1 and D. 2 on page 5. Mr. Chafin who was here to work out some details for Mr. Perin has taken with him necessary information to design and estimate for these works completely and when they are received they will have to be independently sanctioned. The water supply for the New Town will be included in that for the factory; the former forms but a small part of the latter.

21. *General specification.*—The designs proposed are simple with gable roofs and finished neatly using the local timber available and in accordance with the ideas of the Managing Agents.

22. The proposed town site will be cleared and levelled as far as possible and the buildings will be located in suitable sites in consultation with the Managing Agents. (*Vide* paragraph 6 *supra*).

23. *Foundations.*—The nature of the soil that is met is gravel within 2 to 4 feet and the buildings will be founded on this, having one foot layer of concrete in lime mortar to the required width, the remaining portion being made up with burnt stone (size stone) in lime mortar. This latter may, if need be, be substituted by "Burnt Brick in Mortar" during construction in some cases.

24. *Plinth.*—The height of plinth above ground level is two feet for the Guests' Quarters (not to be built just now) and A type Bungalows and 1½ for B and C type Bungalows, and cottages. All outhouses and coolie blocks are given one foot plinth. These will be constructed of burnt (size stone) in lime mortar and exposed faces neatly pointed with cement. If during construction, the foundations of these buildings are built of burnt brick in mortar, the plinth also of such buildings will be built of the same material.

25. *Superstructure.*—The Superstructure of the Guests' Quarters and all the bungalows will be of brick work in lime mortar, while those of outhouses, coolie blocks and cottages will be of burnt brick in clay, except the top courses for a depth of one foot below wall plates and all round doors and windows which will be of burnt brick in lime mortar. All brick masonry is provided to be plastered over with lime mortar. The outer faces of all the buildings will be given suitable color wash, and unimportant rooms of bungalows interior will be white washed, the important rooms being given Shalimer or Halls Distempered Sanitary Wash. The walls of the cottages will only be white washed. Endeavour will be made to prepare good bricks and if it succeeds, the exterior of all the buildings built of such superior bricks will only be pointed with cement or ground mortar, if it can be done without increasing the cost.

26. *Roof.*—The roof of the Guests' Quarters and Bungalows will be of Mangalore tiles with Mangalore pattern ceiling tiles on 2" × 1" reapers laid on teakwood rafters, wood work interior being wood-oiled and exposed wood work painted with silicate paint. All wood work imbedded in masonry will be coated with two coats of coal tar. The roof timber for all buildings except the Guests' Quarters and bungalows will be of *Honne* or *Matti* wood. All interior wood work will be wood-oiled and exposed work painted with silicate paint. All wood work imbedded will be tarred with two coats of hot tar before the wood work is put up.

27. *Ceiling.*—The ceilings will be of Mangalore pattern ceiling tiles to suit the gauge of the roofing tiles and will be used along the slope of the roofing tiles on teak reapers, the interior face of the reapers being flushed with the surface of the ceiling tiles. This kind of ceiling tiles is used for all the main buildings (bungalows, Guests' Quarters and one important room in each of the cottages).

28. *Floors.*—The verandahs, all bath rooms, all kitchen sinks of the bungalows and other quarters and also the Guests' Quarters have floor of Cuddappa slabs 1½" thick, laid on 3" concrete, neatly pointed with cement. The outer edge of the verandahs of the cottages are treated with this kind of flooring for a width of 1'-6". The outer edge of the verandah floor will project 1½" from the plinth face and is finished nosed to give appearance. All interiors of the rooms of all the buildings are given Mangalore tile flooring laid on 3" concrete and neatly pointed with cement, except the floor for outhouses and coolie block where the verandah and the interior rooms are finished with concrete floor in lime mortar rendered smooth with cement.

No. C. 75-8—I. & C. 6-19, DATED 6TH OCTOBER 1919.

29. *Doors and Windows.*—Doors and windows and cleresetory windows are of teak-wood for Bungalows and Guests' Quarters. All outside doors are $\frac{1}{2}$ panelled and $\frac{2}{3}$ glazed, complete with brass fittings all inter-communicating doors are full panelled with brass fittings.

The windows will have iron bars, glazed shutters inside, panelled shutters outside, completely finished with brass fittings. All exposed doors will be painted with silicate paint and inter-communicating doors finished with wood-oiling.

Cleresetory windows will have glazed shutters with necessary ropes and completely painted with silicate paint.

Doors and windows and other fixtures for all out-houses and cottages will be of *Honne* wood. All inter-communicating doors and exposed doors and windows will be finished as stated above for doors and windows in the Bungalows. These doors will have only batten shutters and will have iron fittings.

The eaves, the barge and the hand railings will be of teak finished completely painted and fixed on to the work.

30. *Fittings such as, Sinks, etc.*—There will be bath room sinks 4' x 4' in all bath rooms and a kitchen sink 2 $\frac{1}{2}$ ' x 2 $\frac{1}{2}$ ' for every kitchen. There will be a water washing place in the compound of every building.

31. *Roads, etc.*—Lumpsum provisions of Rs. 26,480 and Rs. 50,000 respectively have been made for the construction of roads and the works connected therewith and such necessary works as compound walls, gates and miscellaneous works. Details for these items will be worked out after the receipt of the layout for the New Town from New York. The whole work will be carried out as per Government specifications for buildings.

32. *Rates.*—These have been fixed with due consideration to the magnitude of the work and the locality in which it is situated. The total amount of the estimate is Rs. 5,00,000.

Government Order No. FL. 1928-77 ~ G.F. 101-18-1, dated 5th October 1918, prescribing a quarterly report of objections and irregularities with a direction that in view to avoid duplication of work, the inclusion in it of one account of Financial irregularities in the annual Appropriation Report was not necessary.

2. Government Order No. FL. 4144, G. F. 83-18-2, dated 24th February 1919, directing the omission of the portions relating to objectionable items in the Appropriation Report as these are reported in the annual statement and review of objections.

3. Letter No. 3501—Books, dated 24th June 1919, from the Comptroller representing that the two orders referred to above reduce the scope of the Audit and Appropriation Report which is intended for publication, involves a departure from the procedure hitherto in force and suggesting that the said report may be ordered to be continued on the lines in force prior to October 1918 and in accordance with the practice in British India.

Order No. FL. 2454—G. F. 284-18-4, dated 23rd October 1919.

Government observe that the quarterly report prescribed in the order of 5th October 1918 is a special one to enable Government to see how the Finances are getting on and whether the irregularities are promptly dealt with by the administrative departments concerned and they agree with the Comptroller that the general Audit and Appropriation Report serves important purposes in the administration and that its scope should not be limited. The Comptroller's recommendation for the continuance of the Audit and appropriation Report on the lines in force prior to October 1918 and in accordance with the practice in British India is approved.

READ:—

Note No. R. C. 1502, dated 9th August 1919, from the Muzrai Superintendent in Mysore, submitting for sanction, proposals for the revision of the scale of expenditure in the Sri Lakshmi Narasimhaswami temple at Devarayadurga in the Tumkur Taluk, together with his Memorandum thereon, and stating that the proposals were drawn up by him after personal inspection and enquiry and that the Deputy Commissioner who was consulted in the matter concurs therein.

MEMORANDUM.

Proposals for fixing a revised scale of expenditure in the temple of Sri Lakshmi Narasimhaswami at Devarayadurga in the Tumkur Taluk,

The temple of Sri Lakshmi Narasimhaswami at Devarayadurga is an important Muzrai Institution with a large circle of devotees. There are two distinct temples one situated at Nelapatna known as Bhoga Narasimhaswami and the other on the Hill called Yoganarasimhaswami.

The temple gets an annual cash grant of Rs. 847-6-0. The Rathotsava which is held in the month of Phalguna at which a great concourse of people assemble also brings a little income. If the jatra is more satisfactorily organized and worked, there is every probability of the temple getting a larger income.

On a five years' average, the temple gets an income of Rs. 1,232-15-0. Excluding the interest earnings on the Pudukat deposits of Rs. 4,350-6-3, which are ear-marked for stipulated services by the donors, the temple income amounts to Rs. 1,049-4-0, a year.

The existing scale of expenditure was fixed in the year 1900, at a total cost of Rs. 833. The following revision proposals are made to suit the present needs of the institution.

Establishment.—The place of shanbhog has been vacant for the past few years. In view of the slender resources of the temple and of the fact that there is no work for two men, the appointment may be abolished and a Parpathegar on a slightly increased pay may be appointed.

Small increases to the archaks and kavalgars have been allowed. As one and the same man is holding the post of Vedaparayana and Bhajane, the same has been combined. The Vedaparayana post on Rs. 1-4-0, a month which is also vacant has been brought under savings. These proposals result in a net increase of Rs. 1-4-0, a month over the present expenditure.

Nityakatte.—The allotment under this head has been raised by Rs. 4. The Naivedya to be offered to the deity on the Hill during mornings is proposed to be in the shape of Dadhyodana and to be distributed to Desantris who might be present at the time of worship.

Hetchukatte.—There is no change under any of the items except that a small provision has been made for the celebration of His Highness the Maharaja's Birthday and the grants for Bhashyakar Tirunakshatra and special worship on Fridays during Sravana have been slightly raised.

An allotment of Rs. 10, has also been made for the contingent and other miscellaneous charges

Miscellaneous.—Statement (C) shows the different kinds of Sevas performed in the temple and the fees fixed for each Seva. Pending further consideration of the matter the fees now levied and their distribution may be continued. Printed books with duplicate forms should be supplied to the Parpathegar and a notice board also hung up in a conspicuous place.

Statement (D) shows the Pudukat amounts offered by private individuals and the Sevas stipulated by them.

No. 1269-71—Muz. 95-19-2, DATED 23RD OCTOBER 1919.

The temple is said to be endowed with two Inam survey numbers at Aregujjanahalli which do not find a place in the Quit-rent register notwithstanding the fact of their entry in the list of alienated lands (village account form No. 8) The lands are in the enjoyment of the shambhog who defrays the cost of Mahara Sankramana Utsava. The lands may be taken possession of and leased to the best advantage of the institution.

The question of levying a uniform rate of fees on shops and cattle assembling during the annual Jatra deserves to be favourably considered.

A contribution of $3\frac{1}{2}$ per cent may be levied on the temple income for the Muzrai Establishment Fund.

The temple had a sum of Rs. 3,019-12-6 at its credit on 30th June 1918.

Order No. 1269-71—Muz. 95-19-2, dated 23rd October 1919.

Government consider the proposals of the Muzrai Superintendent suitable and are pleased to accord sanction to the same.

2. The Deputy Commissioner is requested to take early action in regard to taking possession of the lands said to be in the enjoyment of the shambhog and leasing them out to the best advantage of the temple.

3. Government agree with the Muzrai Superintendent in considering that it is desirable to levy a uniform rate of fees on shops and cattle assembling during the annual jatra. The Deputy Commissioner is requested to submit proposals in the matter as early as practicable.

4. The question of levying a contribution on the income of the temple towards the Muzrai Establishment Fund will be separately considered and orders passed in the matter in due course.

Government Order No. 3666-68, Ry. F. 215—G. 16-17, dated the 6th June 1917, sanctioning a revised estimate amounting to Rs. 1,25,937, for the purchase of machinery required in connection with first equipment of Loco. Shops at Mysore City, including the cost of the existing machinery in use in the Bangalore Workshops.

2. Correspondence ending with Railway Secretary's Note No. 663, dated the 15th August 1919, representing that the Machinery in the list which accompanied the above order allotted for both the Loco. and the Carriage and Wagon Departments were incomplete and insufficient and that the purchase of additional machinery amounting, with approximate prices available at present to Rs. 1,55,150, is most essential for working the present lines, as well as the Bangalore-Nanjangud and the Birur-Shimoga branches to be resumed on 1st October 1919, and soliciting sanction thereto, pointing out the source from which the amount required therefor can be met by reappropriation.

Order No. R. S. 684-88—Ry. F. 215-G. 19-20, dated 9th October 1919.

In the circumstances represented by the Secretary for Railways, Government are pleased to accord sanction to the purchase of additional machinery, as noted in the accompanying statement, required for both the Loco. and the Carriage and Wagon Workshops at an approximate cost of Rs. 1,55,150.

2. The amount required, viz., Rs. 1,55,000, should be met by reappropriation from the grant allotted for the construction of certain Railways during the current official year as under:—

*Rules for the transaction of business at Meetings of the principal Officers of State
worked Railways open to Traffic.*

In order to facilitate general management and to dispense with voluminous, or needless, correspondence, Meetings of the principal officers of the Railway, which shall be called "Officers' Meetings" shall be held at frequent intervals, for discussion of such questions as may be considered necessary by the Agent, such as:—

1. Questions of Policy.
2. Circulars or working orders, affecting more than one department, which, in the opinion of the Agent, it is desirable to discuss before issue, or
3. Matters which can be suitably considered in discussion in preference to correspondence.
2. Official Meetings shall be held not less frequently than once a month, but no meeting shall be held in the absence of the Agent.
3. The meeting shall ordinarily be attended by the following officers:—*viz.*, Superintending Engineer, Traffic Manager, Auditor, Locomotive Superintendent, Carriage and Wagon Superintendent, Chief Store Keeper, but with the prior approval of the Agent, any of these Officers may be represented by any of his Assistants whom he may depute to represent him at any particular meeting, which, for specified reasons, he is unable to attend.
4. Eight days before the date of any meeting, the Agent shall cause an Agenda Notice to be circulated stating the subjects proposed to be discussed at such meeting. Matters of which notice has not been given may also be discussed at the meeting with the consent of the Agent.
5. The Agent shall be the Chairman and direct the discussion and transaction of business. He shall hear all sides of the question, but his decision when given shall be binding on the meeting and shall be recorded in the Minutes. If, however, desired by any of the officers attending the meeting, other opinions may also be recorded. Either the Secretary to the Agent, or one of the Assistant Agents, shall be *Ex-officio* Secretary to the meetings.

No. R. S. 825-30—Ry. F. 45 O.L.-19-20, DATED 31ST OCTOBER 1919.

6. The Minutes of Official Meetings shall be recorded in a Minute Book to be kept by the Agent, and the names of the officers attending each meeting with their official designations shall be entered in the Minutes. Nothing beyond the results of discussion shall, ordinarily, be recorded in the Minutes, but is left to the discretion of the Agent to have recorded what is necessary.

7. The Minutes of the previous meeting shall be read and confirmed, and signed by the Agent before proceeding to the business of the day.

8. After the Minutes of meetings have been confirmed a copy thereof should be submitted to the Member of Government in charge of the Railway portfolio, for information. Relevant extracts from the Minutes shall be sent by the Agent to the Head of the Department concerned, and it shall be incumbent on the department to take steps without delay to carry out any course of action that may have been decided on at the meeting, provided that where a definite sanction is required under any Government Rule, it is necessary that the Officer concerned in carrying out the decision shall receive officially the sanction of the competent authority. Statements of sanctions accorded, gratuities granted, changes in rates and fares, transactions of Provident and other Funds, passes issued, refunds and writes-off, etc., need not be recorded in the Minutes.

9. The establishment rolls and working estimates should be discussed at a Special Meeting held for the purpose, and the recommendations made and the decisions arrived at, at such meeting recorded also in the Minute Book of the Official Meetings.
